PROFIL 

## Sustainable development - analog and digital

I am excited to get to know different people with different motives, strengths and areas of development every day and to find out how I can support them in developing their potential further. In doing so, it is particularly important to me not to forget the context in order to develop development measures that really fit the person and the company.

For this, I can rely on a broad repertoire of digital and analog methods, which I like to combine into holistic development projects to enable sustainable growth.

Clients experience me as a pragmatic and structured partner who quickly adapts to individual needs and requirements due to her agile and dynamic mindset.

## My expertise for you

- Design and execution of face-to-face and virtual training and development projects on topics such as leadership, communication, resilience and interview techniques
- Design and delivery of Assessment Centers and Development Centers for the selection and skills assessment of managers and talents

## Special skills

- M.Sc. in Psychology
- Scrum Master certification (PSM I – Scrum.org)
- Several years of experience in (digital) personnel development

## Selected customers

- Freeletics GmbH
- Fresenius SE & Co. KGaA
- FTI Touristik GmbH
- EnBW Energie Baden Württemberg AG
- TÜV Nord Group
